O masina cu personalitate

Viata capata noi dimensiuni cu Toyota Hilux. Acest model puternic, adaptabil, sofisticat si dinamic ofera nenumarate posibilitati.

Accesoriile Toyota aduc un plus de flexibilitate, punandu-va la dispozitie elemente care sa reflecte gustul dumneavoastra în materie de stil, confort si utilitate.

Toate accesoriile din gama sunt special concepute si realizate cu aceeasi grija si atentie pentru detalii ca si masina însasi. Accesoriile Toyota sunt proiectate numai pentru masinile Toyota.

De asemenea, accesoriile furnizate de partenerii agreati au standarde similare de performanta si utilitate. Drept urmare, indiferent ce accesorii alegeti, acestea se instaleaza usor, se integreaza perfect si puteti avea încredere în calitatea, functionalitatea si siguranta lor.

Oriunde ati vrea sa ajungeti, în orice situatie, cu Hilux si accesoriile Toyota puteti ajunge acolo si va puteti bucura de fiecare experienta asa cum vi se potriveste cel mai bine.

2

Pentru un plus de atractie

Design-ul robust al modelului Hilux creeaza un impact vizual imediat. Adaugati accesoriile Toyota pentru o impresie si mai puternica

Jantele din aliaj va asigura ocazia perfecta de a va exprima stilul. Pentru modelul Hilux puteti alege din doua variante de jante de 15" si o varianta de 16". Fiecare model a fost special conceput pentru a se integra perfect design-ului masinii si pentru a obtine raportul optim între greutate, forta si durabilitate.

Bara suplimentara de protectie frontala, realizata din poliuretan elastic, negru, subliniaza exteriorul dur si robust.

Bara poate fi vopsita pentru a se asorta cu culoarea caroseriei si include un ornament argintiu în partea inferioara si un ornament cromat în partea superioara, pentru un plus de efect.

Daca preferati un aspect mai subtil, puteti opta doar pentru bara suplimentara de protectie frontala inferioara. Aceasta are un ornament argintiu si se integreaza perfect pentru a sublinia bara standard de protectie fata.

Alegeti stilul care vi se potriveste

Detaliile fac diferenta atunci cand este vorba de stil. Accesoriile Toyota va ofera posibilitatea de a va exprima stilul personal.

Rollbar-ul bena este un prim exemplu de element ce aduce o nota de stil. Realizat din otel inoxidabil cu finisaj din crom, acesta se fixeaza chiar in spatele cabinei pentru a crea un superb efect vizual. Design-ul si instalarea sunt pe deplin compatibile cu capitonajul de protectie bena.

In acelasi ton, rollbar-urile laterale din otel inoxidabil cu finisaj de crom completeaza cu efect forma si statura modelului Hilux. Alternativ, puteti alege pragurile laterale din aluminiu.

Acestea se muleaza perfect pe forma robusta a masinii, oferind un avantaj practic, facilitand accesul pasagerilor in masina.

Lampile frontale completeaza imaginea puternica cu accente elegante. Acestea functioneaza atunci cand actionati faza lunga si aduc un plus de vizibilitate pentru momentele cand conduceti noaptea sau pe vreme nefavorabila.

Lux de neegalat

Interiorul captusit cu piele confera modelului Toyota Hilux o nota de lux inconfundabil.

Acum puteti dispune de un interior captusit cu piele, indiferent daca optati pentru cabina simpla, dubla sau extinsa. Fiecare model include scaune si usi captusite cu piele de culoare light grey.

Pielea folosita pentru capitonaj este selectata cu mare atentie. În timpul fabricarii, aceasta este supusa unor inspectii riguroase, pentru a se conforma celor mai înalte standarde europene. De aceea, puteti fi sigur de confortul si durabilitatea capitonajului,

avand, în acelasi timp, avantajul întretinerii usoare, pentru a pastra imaginea eleganta a interiorului

Accesorii adauga mici detalii care subliniaza aceasta imagine. Ornamentele pentru praguri din inox mat, montate la usile din fata, confera nu numai stil, ci si protectie împotriva zgarieturilor. Manerul îmbracat în piele al schimbatorului de viteze, disponibil atat pentru modelul cu tractiune 4x2, cat si pentru cel cu tractiune 4x4, aduce o ultima nota de stil, pentru a completa imaginea impunatoare si distincta a modelului Hilux

Adding to the adventure

The Hilux has an almost legendary 'go anywhere' capability. Toyota accessories add even more carrying capacity to enhance the spirit of adventure.

You have a choice of either detachable or flanged towing hitches. Each is suitable for use with or without a rear bumper and can be supplied with a dedicated wiring kit. The detachable hitch allows up to 2,000 kg towing capacity while the flanged hitch has a 2,800 kg capacity.

If cycling is your passion, the rear bicycle holder will fix to either type of towing hitch and can hold up to three bicycles when combined with a separate extension.

For maximum flexibility, the aerodynamic, aluminium, lockable roof rack provides the ideal solution. It is easy to install and can

be combined with a great range of optional attachments. The attachments include load platforms, kayak and surfboard or holders, a bicycle holder and two sizes of ski holders. There are also streamlined designs for a ski box and luggage box, both feature central locking and passenger side opening.

For inside the cabin the range includes a seat-back storage bag with detachable rucksack section, seat-back coat hanger and a high capacity cool bag that plugs into your car's 12 volt accessory socket and can be used for keeping refreshments either piping hot or deliciously chilled.

Protection you can rely on

For parents, protecting younger passengers is perhaps the biggest responsibility of all. That's why Toyota child restraint systems are purpose designed for maximum safety.

The Duo Plus seat is for children of between eight months and four years (approximately 9 to 18 kg). It fixes securely using the standard three-point seatbelt and has wide wings for maximum side impact protection.

For babies up to about 15 months (to 13 kg) there's the Babysafe seat. This is designed to increase side impact protection and also incorporates an adjustable canopy to shield against the sun and wind.

The Kid restraint system suits bigger children of between three and twelve years (approximately 15 to 36 kg). Its design

consists of two parts: a booster cushion and a backrest featuring deep side wings and a curved head support. The extra height of the booster cushion and the precise guides on the backrest ensure correct seatbelt positioning to hold your child firmly but comfortably in place. The system attaches using the seatbelt and has a height adjustable headrest.

Protection for your carpets is provided by Toyota tailored fit floor mats. There are rubber mats to maximise protection against the very worst conditions, and a choice of velour or needle felt textile mats.

Day to day care

The Toyota accessory range provides extra security and protection to care for your car and enhance that 'peace of mind' feeling.

Toyota's parking aid system is a great help in avoiding the bumps and scrapes of city parking or when parking near to low objects. You have a choice of the TPA400 system with four rear sensors or the TPA800 with four rear and four front sensors. When either system is engaged, the sensors link to an interior warning that becomes progressively louder the closer your vehicle gets to an obstacle.

For security when parked you can complement the Hilux's pre-fitted immobiliser with the powerful anti-tamper alarm of

the vehicle security system. Additionally, there's a steel lock for your spare wheel and a set of four hardened steel locks with a unique coded key for your valuable alloys.

If you like driving with the windows open, Toyota wind deflectors let you enjoy the fresh-air sensation without excessive turbulence and noise.

Tough, practical and secure

The Hilux lets you carry almost anything to virtually anywhere. Toyota deck bed accessories make it safer, easier and more secure to do so.

The hard tonneau cover with its hi-over bar and lockable hinged opening offers a great combination of style and practicality. It can be painted to match your car's body colour for that totally integrated look.

Optimum functionality comes in the form of the lockable aluminium tonneau cover by Mountain Top. It protects items stored within the deck bed and, being made of heavy duty

aluminium with in-built rails, it can also be used to secure items weighing up to 100 kg on its top.

The soft tonneau cover is just right for protecting your cargo against the weather and the prying eyes of passing strangers. It is made of durable black polyester and is fully compatible with the deck bed liner.

Easy access and security combine in the ingenious Mountain Top roll n' lock tonneau cover. Conveniently, the system features auto-positioning and locking so that you can secure the cover in a partially or fully closed position. The Mountain Top cargo manager which can be added as an option presents a simple yet highly effective way to prevent your cargo moving about.

Extending your deck bed options

The range of deck bed accessories offers you a choice of deck bed liners to protect your car and ideally suit the type of cargo you intend to carry.

The high density deck bed liner is just right for day to day items and is fully compatible with Toyota tonneau covers. Heavier protection comes in the form of the Mountain Top under-rail inner bed liner. Made of strong polyethylene (HDPE), it has a non-skid surface and is resistant to UV light, shock, oils and most chemicals.

For those really tough carrying jobs you need the Mountain Top aluminium bed liner it has ultra-strong polyethylene wheel arch covers and it can be combined with the aluminium tonneau cover.

The Mountain Top bedrug gives your deck bed the look and feel of having a conventional car boot carpet. Made of the same material as a hard plastic liner, the bedrug has a fibre surface that is resistant to stains, water, acids, grease, oil and chemicals. The bedrug combines with the tonneau cover to create the ultimate user-friendly enclosed carrying space.

The Mountain Top lightweight, aluminium tube bed x-tender enables you to extend the deck bed so that you can safely transport large items of cargo, and it can be flipped over for use as a deck bed divider to secure smaller items.

1. Polyester hardtop with side windows
2. Polyester hardtop for commercial use
3. Polyester hardtop with side doors

Hardtop appeal and practicality

A Toyota hardtop combines superb load carrying practicality and cargo protection while giving your Hilux the great looks of a wagon.

Importantly, Toyota hardtops are tailor made for the Hilux and securely clamp into position without the need for drilling or structural modifications.

You have a choice of three highly durable polyester designs featuring integral roof rails or roof rack. Each can be easily

removed to create an open bed for carrying bulky items. Two of the designs are colour matched to your vehicle and have a rear window, an interior light and interior fabric cladding, plus either side windows or side doors. The third, which is available in white only and has no windows, is ideal for more rugged business use.
